

Oticon Dual - Winner 2009 Australian International Design Awards - Medical and Scientific,
Nominee 2009 Australian International Design Award of the Year

AS SEEN ON TV

Designed for style, engineered for performance, virtually invisible on your ear.

Do you **recognise** this situation?

Special Invitation

Enjoy TV together again

Finally, you can upgrade your hearing to fit modern life

Is the right TV volume for you the wrong volume for everyone else? Do you find it hard to understand phone conversations? If so, chances are you have difficulty hearing. You are not alone. Many families and spouses have these experiences.

Discover what a new wireless hearing system can do for you.

A new wireless hearing system from Oticon can get you connected to people *and* today's modern lifestyle devices. Discreetly regain listening comfort — even in noisy group situations. Adjust the TV volume to suit yourself and others, and hear people talking around you! Never miss a phone call, even when the TV is on. Enjoy clear and effortless phone conversations on your landline or mobile phone. Thanks to wireless technology, you can solve these challenges with one discreet and integrated wireless hearing system.

This invitation entitles you to:

- Complimentary consultation and demonstration of the ConnectLine wireless hearing system
- FREE trial of Oticon wireless hearing aids

There is absolutely no cost or obligation to attend. Call now as places are limited!
